

TCA CLUB CAR SHIPPING UPDATES

*** Information Current as of September 4, 2019 ***

Convention and “Member-Exclusive” Cars are custom-built, manufactured based on orders received. Payments are processed when we receive an order, and all orders are combined to create the full order placed with the manufacturer. As the production of these cars may involve offshore work and shipping, the timelines can vary widely.

We work closely with the manufacturers to avoid delays, but it is typical for you to receive your convention cars in the second half of the year after they are ordered. So an order placed in October of 2019 might be anticipated for delivery in mid-to-late 2020. Again, this is highly variable—your patience is appreciated!

The tables below reflect the shipping information (or, if delivered, the approximate date of delivery) for all of TCA’s recent special car offerings, with information current as of the “Updated” date above.

Convention cars can take over a year to be delivered from the manufacturer. Please update your address when you relocate so your cars go to the proper location! To update your address, or for further information, call the office at 717-687-8623 or email TCAcars@traincollectors.org
